Subject: FW: Notification of Field Work -- RE: Fish Tracking Approval

Davis – I looked at the email transmittal for the fish tracking HASP addendum and you gave it to us on Tuesday morning, but Ken did provide it on Monday at 5:36pm. So as long as they address the comments we have on their fish Tracking HASP addendum tomorrow (I provided these comments to you today), they could technically start fish tracking activities on Monday 4/23. EPA will need to see their updated fish Tracking HASP addendum RLSO by tomorrow.

Subject: Notification of Field Work -- RE: Fish Tracking Approval

Davis,

As part of the acoustic fish tracking study, receiver deployment and testing activities will commence next week (4/23) on one vessel from Ballard Marine. Start time is anticipated to be between 7:30-8 am at Swan Island Boat Ramp each day.

The field team will provide further updates as needed.

Subject: Fish Tracking Approval

Ken,

I am writing to approve Pre-RD Group /AECOM's revised Fish Tracking FSP as submitted on 3/30. Please note that this approval will allow the Pre-RD group/AECOM, and its contractors to perform Fish Tracking activities in the Portland Harbor Superfund Site starting after the date of this approval. This approval is limited to activities as described in your Field Sampling Plans and your health and safety plan for Fish Tracking, any other activities beyond the scope of your

FSP and HASP are not covered.

Thanks,

Davis Zhen, Manager
